### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### IN THE SPECIFICATION:

Please amend the specification by inserting before the first line with the following sentence:

"This is a division of Application No. 09/758,610, filed 01/11/2001, U.S. Patent No. 6,780,250, the entire disclosure of which is hereby incorporated herein by reference".

2. Claims 14-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicant's argument filed 8/16/04 as to the point that none of the cited prior art teaches a process of removing oxide from a semiconductor wafer including the step of exposing a single semiconductor wafer in a transfer chamber module to a vaporous solution that removes the oxide layer and then aligning the wafer in the transfer chamber module for presentation to a process module.

4. The closest prior art Kikuchi (5,620,559) teaches a process of removing oxide layer from a semiconductor wafer, wherein the wafer (104) is transported through a

load-lock chamber/transport chamber module (120) into a HF vapor processing chamber (105) and then the wafer is transported to a processing chamber for film formation (col.11, lines 34-41 and figure 11).

Kikuchi fail to teach exposing a single wafer in a transfer chamber module to a vaporous solution that removes the oxide layer.

Another closest prior art Huanga et al (5,670,431) teach a process including the steps of transferring wafers between HF cleaning chamber (56) and a deposition chamber (54) with the help of wafer transfer system (52) but fail to teach exposing a single wafer in a transfer chamber module to a vaporous solution to remove the oxide layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
